

Cleaner Restrooms, Reduced Cost Per Service and Happier Customers and Employees.

Use the powerful 1000 psi power washer or pull two position wand to apply disinfectant.

The Pathfinders™ spray system will revolutionize the way you clean and service restrooms.

- **Kills 86% more mold and bacteria than traditional brush and towel methods.**
- **6 month return on investment when used as directed.**
- **Auto-fill option charges tank with 5-6 gallons of water in one minute. Drivers will be less fatigued and have less chance for injury due to daily lifting and carrying water to fill tanks.**

This is a simple, cost saving system that will improve your service and save you money!

A Use power sprayer to remove dirt and debris

B Charge the tank in less than 1 minute. No more lifting heavy buckets

C Ecolab™ disinfectant cleans and deodorizes in one simple step

Compact, Easy To Operate and Maintain

Operating and maintaining the Pathfinders spray system takes very little time and is easily serviceable due to its compact design. A highly dependable 1000 psi pump, with auto-shut off and adjustable flow rate, is the power behind dual spray guns. One gun operates at 5 GPM for charging the tank, while the other functions as a high-pressure sprayer for cleaning or low pressure sprayer for applying the disinfectant.

The Ecolab disinfectant used in this system does more than kill mold and bacteria that cause unwanted odors. It has other benefits that include:

- Removal of rust and calcium deposits
- Added shine
- Added resistance to graffiti and dust

If you're serious about your service, use the Pathfinders spray system. It's the "Next Generation" of cleaning systems.

FEATURES

- 1 High Volume Fill (5 GPM)
- 2 4 Gallon Disinfectant Reservoir
- 3 High pressure/disinfectant spray gun (Change settings at nozzle)
- 4 Auto Shut-Off
- 5 Adjustable Flow Rate (Disinfectant)
- 6 1000 PSI Pump
- 7 Enclosed Poly Cabinet
